
2011 and Couples Enrichment.

Welcome to a new and complete way to understand intimate relationships.

ThriveSphere is available through Dr. Carol Ann Killoran, a trained ThriveSphere facilitator who directs couples to take the "reflectment" online at their convenience.

ThriveSphere™ is an advanced computer visualization that allows couples to "see" how they relate.

ThriveSphere provides a visual reflection of a relationship. It displays the views of each partner and reveals how those views interconnect.

ThriveSphere can provide you a tool for the beginning of couple counseling or you can take it as an educational program to enhance your couple relationship.

Achieve relationship growth faster!

This Spring I will be offering a group ThriveSphere educational session. As a couple you will take the ThriveSphere then come to the group session where Dr. Killoran will explain in a group setting the resource for the ThriveSphere and give each couple confidential time to discuss their ThriveSphere. Dr. Killoran will be available to assist.

Special Offer:

This session, for the first ten couples that sign up will be only \$50.00. This is a \$125.00 discount off the \$175.00 fee. This is a special offer provided by Dr. Killoran. The \$50.00 fee is for the ThriveSphere only.

Take advantage of this extended discount to enrich your relationship communication.
